

*In the claims:*

✓  
Please cancel claims 14 and 26 without waiver or prejudice.

✓  
Please amend claims 1, 11, 16 and 18 as follows:

B<sup>1</sup> 1. (Amended) A method of inhibiting vascular hyperpermeability in an individual comprising the step of administering to said individual a therapeutically effective amount of a compound that inhibits the cellular signaling function of KDR.

B<sup>2</sup> 11. (Amended) The method of Claim 10 wherein said compound is an organic molecule wherein said compound binds to said KDR tyrosine kinase.

B<sup>3</sup> 16. (Amended) A method of inhibiting a physiological process or state in an individual, said physiological process or state selected from the group consisting of edema formation, diapedesis, extravasation, effusion, exudation, ascites formation, matrix deposition and vascular hypotension, wherein said inhibiting comprises the administration of a therapeutically effective amount of a compound that inhibits the cellular signaling function of KDR.

B<sup>4</sup> 18. (Amended) The method of Claim 17 wherein said compound is an organic molecule wherein said compound binds to said KDR tyrosine kinase.
